Spring Lock Poly Lock

Keep your poly securely in place with Spring Lock from the BFG Grower Select line. Spring Lock can be formed to the top of curved bows, secured

to any structural member, and even installed around gable ends. Suitable for holding poly from 2 to 20 mil, Spring Lock will not pinch, bind or weaken the material it secures. Quantity price breaks available — call your BFG sales rep for details.

Convection Tubing

High-efficiency, low cost air circulation is what you get with BFG Grower Select convection tubing. Crafted

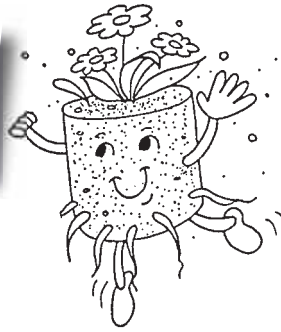

from 4 mil clear, UV-inhibited greenhouse film, our convection tubing is available in three stock sizes or can be custom-manufactured to fit your structure perfectly.

Order by December 31, 2009 and save 10%

PLUG PROPAGATION MADE EASY

The Fertiss® propagation plug system is a unique, soilless growing medium which helps keep production costs down while turning out healthy starter plants. Made of a special blend of sphagnum peat moss, perlite and vermiculite, the Fertiss mix is bound by a cellulose non-woven net that allows for root penetration and natural “air pruning,” which encourages secondary root growth. Fertiss plugs are available in numerous sizes and tray configurations — call your BFG sales rep for details.

fertiss®

OASIS® FOAM: ENGINEERED FOR HIGH PERFORMANCE

Choose your own shape — Wedge® or Rootcube® — but depend on all OASIS® foam growing medium to deliver rapid root development and faster crop turnover. OASIS media is rigid, open-celled, absorbent foam specifically engineered to provide the optimum balance of air and water for cuttings, from annuals to perennials to woody ornamentals. Several sizes in stock; many more available. Call your BFG sales rep to learn more.

GET THOSE PLUGS A-POPPIN'

Founded in 1981, Antal/Cayson specializes in the manufacture of plug dislodging equipment for the greenhouse industry. The Antal Plug Popper produces neat, easy-to-handle plugs with no damaged roots or stems, operates smoothly using a simple foot pedal, and can dislodge up to ten trays per minute. All Antal/Cayson products are unconditionally guaranteed. Call your BFG sales rep for more details on available models and pricing.

LET US MAKE YOUR KASE

FOR OVER 27 YEARS, growers have turned to Kase Machine Works for bulk material handling equipment designed and manufactured specifically for the horticultural industry. From bale breakers to flat fillers to modular belt conveyors, Kase has it all — craftsman quality made proudly in the USA.

BALE BREAKERS

Gobbler (Model 3561)

Large bale processor for bales up to 4'x4'x8'. Fitted with open-back hopper and hydraulic lift gate for easier loading; capacity rated at 50 cubic yds./hour.

Base price: \$19,450.00

Jake (Model 3551)

Medium bale processor for bales up to 4'x4'x4' (55-cube). Handles either bulk or compressed mix; gathering auger with center discharge chute; readily adapts to automated operation.

Base price: \$15,340.00

CONVEYERS

Flat Belt Konveyors (4100 Series)

Modular unit available in standard 12' or 20' lengths with 10" or 15" wide belt, variable speed or reversing controls, and many other options.

Base price:

Model 4123 (10"W x 20'L): \$1,230.00

FLAT FILLERS

Super B (Model 5361)

Fills containers up to 12" tall x 20" wide. Equipped with variable speed dirt elevator, vibrator for compaction of trays, and power take-off assembly. Ideal for high production operations.

Base price: \$24,700.00

Generation II B-Line Flat Fillers (5343 Series)

Fills plug trays, pots up to 11" tall, and hanging baskets. Unique brush/auger system to sweep off containers. Fills up to 1,200 10"x20" flats per hour, depending on depth of insert. Three models available:

Standard — Base price: \$13,830.00

Deluxe — Base price: \$16,670.00

Heavy Duty — Base price: \$15,120.00

SPECIAL OFFER ONLY ONE UNIT AVAILABLE!

Generation II B-Line
Flat Filler
(Deluxe Model 5343DX)

Unit measures

CORNER

Veranda™ O

Veranda O fungicide has a unique mode of action, unlike any other fungicide. Long-term control can exceed 21 days. An excellent choice for broad-spectrum control of diseases such as Botrytis, Alternaria, Downy Mildew, Rhizoctonia and many others. Great for rotation.

Item #	Description	List Price
19-0403D	Veranda™ O 1 lb.	\$169.66

SureGuard®

In nursery and landscape settings, sprayable SureGuard herbicide is a long-lasting pre-emergent safe for use on woody ornamentals to control broadleaf weeds, including difficult-to-control species such as groundsel. Up to 12 weeks control. Available in granular formulation as BroadStar™.

Item #	Description	Size	List Price
19-1068A	SureGuard	1 lb.	\$204.57
19-1068	SureGuard	5 lb.	\$852.41
19-1006	BroadStar	50 lb.	\$125.00

Topflor™

Topflor is a plant growth regulator (PGR) for use on a wide range of crops, including vigorous varieties such as trailing petunias and lantana. Topflor does not delay flowering, cause bud lock, or diminish flower size and color. New to the U.S., Topflor is the #1-selling PGR in Europe.

19-0711F	Topflor 2 Liter	\$226.00

NEW!

FREEZE PRUF from Liquid Fence

It's like moving the freezing point.

Introducing revolutionary new FreezePruf, a patented foliar spray that increases plant resistance to both cold damage and cold mortality. Properly applied, FreezePruf protects externally and systemically and improves plants' cold tolerance by up to 9.4° Fahrenheit — the rough equivalent of moving your climate zone 200 miles south. FreezePruf is biodegradable and non-toxic, and safe for use on all plants including fruits and vegetables. FreezePruf costs only pennies per flat to use.

Item #	Description	Size	List Price
19-1001	FreezePruf Concentrate	1 gal	\$88.38
19-1005	FreezePruf Concentrate	2.5 gal	\$185.62
19-1026	FreezePruf Ready-To-Use	12 x 1 qt	\$127.18

LIQUID FENCE®
PRO
DIVISION

MAKE YOUR GREENHOUSE A CLEAN HOUSE

Having problems with diseases or pests in your greenhouse and potting areas? Your facility might just need a good cleaning. Focusing on sanitation and disinfection while your greenhouse is between crop cycles will get you prepared for the next growing season, but beware — simply sweeping floors and wiping down benches is not likely to solve the problem. Exterminate pests and eliminate diseases using these great products.

Always read label prior to use.

ZeroTol®

Use ZeroTol as a high-level treatment to control algae, bacteria, and fungal plant pathogens on contact. ZeroTol can be used on tools, pots, trays, structures, concrete/gravel/dirt walkways, stock tanks, and irrigation lines. ZeroTol is plant-safe, allowing applications to be made when greenhouses are full of plant material.

BiSafe Systems

Item #	Description	List Price
19-0608	ZeroTol 2.5 gal.	\$130.72
19-0607	ZeroTol 30 gal. drum	\$1,372.50

KleenGrow™

KleenGrow is a broad-spectrum disinfectant suitable for use as an algicide, bactericide, fungicide and virucide, with a near-neutral pH that will not cause corrosion. Delicate enough to apply to propagation material, yet powerful enough to provide 30-day control of disease and algae on hard surfaces. KleenGrow can be tank-mixed with other fungicides to enhance their benefits.

PACE 49 Inc.

Item #	Description	List Price
19-0603J	KleenGrow 5 gal.	\$270.09

Green-Shield®

Green-Shield Disinfectant & Algicide gives growers a biodegradable, cost-effective way to control unwanted plant pathogens and algae on hard surfaces. Unlike common bleach, Green-Shield is EPA-registered for broad-spectrum control, causes no damage to clothing or nearby surfaces from splashes, and lasts four times longer in solution. One gallon of Green-Shield is equivalent to 28 gallons of bleach.

93% EFFICIENCY — 100% CHANCE OF SAVINGS

Introducing the new Effinity⁹³ (PTC series) greenhouse heater from Modine — the most efficient gas-fired, condensing unit heater in North America. With six models available ranging from 135,000 to 310,000 BTU/hr, all operating at 93% efficiency, the Effinity⁹³ will dramatically lower your energy costs by lowering your fuel consumption, while still delivering uniform wall-to-wall greenhouse temperatures.

PUT SOME GREEN BACK IN YOUR POCKET

Savings will vary by region but in many areas the Effinity⁹³ will pay for itself in as little as two years, making it not just a smart choice for improving your greenhouse environment but a smart investment as well. Want to know more? Contact your BFG sales rep about running the Modine payback calculator to learn how quickly you'll be seeing green.

**THE EFFINITY⁹³ FROM MODINE.
